

Curriculum Vitae

Personal information

Name: Mehrshad **Surname:** Taheri **Birth date:** 16 September 1977
Gender: Male **Marital Status:** married, one child **Nationality:** Iranian

Email: mehrshadtaheri@yahoo.com and mehrshadtaheri@onio.ac.ir

Phone: 0098(0)910 9708617

Educations

- PhD in Science - Marine sciences, Ghent University. 2011- June 2016 (5.5 years).
Thesis: "The effect of oxygen stress (hypoxia and anoxia) on free-living marine nematodes in coastal ecosystems"
Supervisors: Prof. Dr. Jan Vanaverbeke, Prof. Dr. Magda Vincx
- Master in Marine Biology - Marine Animals, Tarbiat Modarres University (TMU), Tehran, Iran. 2003 –2006
Thesis: "Identification, Distribution and Determination of Biomass of Polychaetes"

at the Caspian Sea – Noor Coast".

Supervisor: Dr. J. Seyfabadi. Total GPA: 18.96/20

- Bachelor in Fisheries, Gorgan University, Gorgan, Iran. 2001 – 2003. Total GPA: 18.83/20
- Associate degree in Fisheries, Gorgan University, Gorgan, Iran. 1996 – 1998. Total GPA: 17.23/20

Scientific career

Academic member in Biological Science Department, Iranian National Institute for Oceanography and Atmospheric Science, Nowshahr, Mazandaran, Iran (2022–up to now).

Academic member in Biological Science Department, Iranian National Institute for Oceanography and Atmospheric Science, Bandarabbas, Iran (2017–2018).

Expert in Biological Science Department, Iranian National Institute for Oceanography and Atmospheric Science, in south (Chabahar: the Gulf of Oman) and north (Nowshahr: the Caspian Sea) of Iran (2006–2011, 5 years).

Research Interests

- Ecology and diversity of macrofauna and meiofauna (marine free-living nematodes) in relation to environmental changes in marine sediments and artificial hard substrates environments.
- Effect of climate change especially oxygen stress and ocean acidification on the taxonomic and functional diversity and activity of marine benthic organisms (macrofauna and meiofauna) and the consequences of ecosystem functioning.

- Study on the effect of marine litters on coastal ecosystems with emphasis on benthic communities.
- The role of macrofauna and meiofauna in structuring sediment biogeochemistry, coastal management, sea floor integrality and benthic food dynamics and webs.

Research projects

Director of project "Study on the southern Caspian Sea surface temperature rise on the benthic free-living nematodes community (density, number of species and ecological indices) - A case study; Mazandaran province, nowshahr coast" (2017–up to now).

Director of project "Study on the biodiversity of free living nematodes in sediments of macroalgae beds in Mazandaran province sandy beaches- Iran" (2017–up to now).

Cooperation with project "Investigating the amount of absorption of heavy metals from cigarette butt leachate by Caspian Sea macroalgae (Case study-Cladophora glomerata)" (2017–up to now).

Cooperation with project "Assessing historical trends on dissolved oxygen variations in coastal waters of Bandar Abbas, using biogeochemical proxies" (2017–2018).

Director of project "The effect of oxygen stress (hypoxia and anoxia) on free-living marine nematodes in coastal ecosystems" (2011 –2016).

Director of project "Species identification and ecological survey of benthic animals of sand beach of Chabahar Bay" (2010 –2011).

Director of project "Species identification and ecological survey of benthic animals of sand beach of Chabahar Bay" (2007 –2008).

Cooperation with project "Assessing historical trends on dissolved oxygen variations in coastal waters of Bandar Abbas, using biogeochemical proxies" (2018-up to now)

Cooperation with project "Crab identification of sandy, muddy and rocky beaches of Chabahar Bay" (2007 –2008).

Cooperation with project "Identification of marine resources and study on chemical ecology of dominant living resources in intertidal regions of Chabahar Bay for preliminarily identification of biomaterials" (2006 – 2008).

Cooperation with project "Evaluating the potentiality of INCO marine chemistry lab in determination of PAHs & PCBs in the sample of IAEA-MEL and sediments of Chabahar Bay" (2006 –2007).

Experimental and laboratory techniques

Macrofauna and free-living nematodes identifications

Preparation nematode slides

Sediment core incubations

Oxygen microprofiling with Unisense electrodes and Pyroscience optodes

Stable isotope analysis

Basic method of aquatic animal reproduction. Chabahar Maritime University, Iran

Basic Ichthyology, Systematic. Chabahar Maritime University, Iran

-

- **Thesis**

Co-promoter of a PhD student (Omid Rowshan)

Co-promoter of a master student (Kowsar Sazide)

Co-promoter of a master student (Amir Faraz Ghasemi)

Workshops and scientific courses

Certificate of "Fiddler crab behavior and ecology in coastal waters of Persian Gulf" 13 – 16th April 2008. By Prof. Patricia Backwell (Australian National University) (Bandar Abbas, Iran)

Certificate of "study on coral reefs health with Coral Watch method" Persian Gulf" 15 – 16th December 2008. By Teymour Aminirad. PADI Master SCUBA Diver Trainer, specialty Instructor. # 62538 (Chabahar, Iran)

Nematodes as Environmental Bio-Indicators (Gent, Belgium)

Dredging, environmental and marine engineering (Gent, Belgium)

Statistics - Introduction to R (Gent, Belgium)

Statistics - Analysis of Variance (Gent, Belgium)

Transferable skills

Leadership Foundation Course (Gent, Belgium)

Personal Effectiveness (Gent, Belgium)

Advanced Academic English: Conference Skills - Academic Posters (Gent, Belgium)

Advanced Academic English: Conference Skills - Effective Slide Design (Gent, Belgium)

Applying for a postdoctoral job (12h extended module) (Gent, Belgium)

Computer skills:

Statistical softwares: SPSS, PAST, Primer+Permanova and R

Microsoft office: Word, Excel, PowerPoint and Access.

Graphical editors: Adobe Photoshop and Paint

Additional skills:

Two star scuba diving in CMAS federation and PADI "Skin Diver" and "Open Water" certificates as well as some scientific diving (diving in the Netherlands, Belgium and Iran).

Take part in several marine cruises in North Sea, Caspian Sea, Persian Gulf and Oman Gulf.

Having good experience on intertidal, subtidal and continental shelf.

Good knowledge about sampling methods and statistics.

Collection, analysis and interpretation of scientific data.

Driver's license B from Iran.

Language skills: Persian (Mother tongue), English (Full proficiency), Dutch (Elementary proficiency).

Interests: scuba diving, swimming, mountaineering, physical training, playing music, reading books, watching movies, travelling, adventure journey and entertaining friends.

Awards and achievements

Four years scholarship from the Ministry of Science, Research and Technology, Iran, scholarship nr 24-88200022.
